

N V PASINDU PIYUMIKA

UI/UX Designer/ Web Designer

[Linkedin](#) [Behance](#) [GitHub](#)

I am a 3rd year undergraduate specializing in Management of Information Systems (MIS), with a deep interest in technology and user experience. I'm passionate about UI/UX design and frontend development, and I enjoy creating designs that are both functional and user-friendly. I have worked on several UI/UX projects using tools like Figma and web technologies such as HTML, CSS, and JavaScript, which I proudly showcase in my [personal portfolio](#) and [Linkedin profile](#). I've also gained hands-on experience and recognition by participating in and winning UI/UX design competitions. Currently, I'm seeking an internship to apply my skills in real-world projects, gain industry exposure, and contribute to a creative, forward-thinking team. I'm a problem solver, a collaborative team member, and always eager to learn and grow.
